

Motel Rooms

Our Rooms are modern drive-up motel rooms, with a full bathroom with a tub and shower. Since taking over the Balmoral, we have replaced the beds with new Simmons Beautyrests. We regularly have guests who are amazed by the quality of their sleep in our rooms, so we have made arrangements to allow us to offer you the same bed delivered to your home direct from the Simmons factory.

Our rooms are equipped with either two Double Beds, one Queen Bed, or one King Bed. The Non-Smoking Queen rooms have a Futon which is normally set up for seating, but can be folded out to make a double bed. There is a complete set of sheets, blankets, and pillows in the dresser to allow you to make it up as a double bed. Some of the rooms with two Double Beds have an additional cot which is kept ready for use in the room.

All of our rooms have a four piece bath with both a bath and a shower. All rooms have a view of the water, and all are equipped with phones, a clock radio and color TV with cable. We also provide a free daily newspaper. All of our units are drive-up rooms with free parking just outside the room. We also have extra parking for larger vehicles and boats beside the office.
