

Smoking and Non-Smoking Rooms

We cater to both smokers and non-smokers, with both smoking and smoke-free rooms available. Please note that our rooms are either dedicated smoking permitted or dedicated smoke-free, so it is important that you inform us of your preference when you make your booking. Smoking is not permitted inside our property, other than in designated smoking rooms, so the lobby, washrooms, and other public areas are definitely non-smoking. As well, Nova Scotia law does not permit outdoor smoking within 4 metres, or approximately one car length, of any door or window of any building, and we would ask you to respect that during your stay.

When you check in, you will sign a declaration that you agree to pay a room cleaning and recovery fee of \$125 if you or your guests smoke in a non-smoking room during your stay.
