

## Phones

All of our rooms have telephones which connect to the outside world through a switchboard in the Office. Should you wish to make a call, press 9 for free local or Toll-Free service. For long distance service, please dial 8 for a line which permits free long distance service.

Should you wish to call another guest room, extension numbers consist of 2 plus the room number. So, for example, to reach room #10, dial 210. Should you wish to have your family or friends call you, our phone system has an autoattendant which allows you to be reached from outside at anytime, as long as your caller knows your extension number. We do not offer message service.
